REFERENCE

Ing. Jenny Flores

PROFESSIONAL PORTFOLIO

PROFESSIONAL PROFILE

I am a university student majoring in Computer Systems and Networks Engineering, focused on web and computer systems development. I have developed applications such as accounting systems and CRUD modules with authentication and role control.

My main focus is on server logic, database design, and structuring efficient systems.

I am looking to develop professionally in the area of web development, contributing functional and scalable solutions for companies and digital ventures.

COMPETENCIES

- Application and website development and design
- User interface designer

TECHNICAL SKILLS

- Junior Back-End Developer specializing in PHP and databases.

SOFT SKILLS

- Teamwork
- Contribution of ideas

AREA OF SPECIALIZATION

- Back-End Web Development
- CRUD Systems
- Authentication and Role Control
